

Dreaming Victoria

Live in euphoria
One and two store it up
Call it in tore it up
Fading pictures

I know you
But I don't know your name
I know you
But I don't know your name

Dreaming Victoria
Feel the cold warming up
Losing cold eyes are shut
Broken Fingers

I know you
But I don't know your name
I know you
But I don't know your name

[repeat]

Come December

Blue sky will lay / Cold and bright upon me
By the shoreline / Wrapped in sweatshirts

Mittens by knees / I'll be staring out
At the shoreline / You'll be wishing I could see

Hidden cove around the cliffside
Lapping waves of the departing tide

Sand in my hair / We'll stop in a diner
Built for two / Your shout a tear

Wind in my ears / We'll stop in a diner
Built for two / To eat our eggs looking out

Sitting staring at an empty park
Hear the scarping forks it's getting dark

Then you said to me

Let's go go go to the beach beach beach
Come December
Let's go go go to the beach beach beach
Come December

We'll be walking / Tell me once again
That we will never / Bumping shoulders

Then you'll turn and / Tell me once again
That we will never / Have to lie in bed at night

Wondering in the dark what it'd be like
Bathing in a surf as cold as ice

Go go go to the beach beach beach
Come December
Let's go go go to the beach beach beach
Come December

[repeat]

Turn a Corner

You were tired of turning a corner
You wanted to walk a straight line
So I gave you gave you a present
My present present could cry

It was your birthday
You were folded in a corner
Happy birthday
Put your hand on my shoulder

You were tired of bending your borders
You wanted to walk a fine line
So I gave you gave you a present
My present present could cry

It was your birthday
You were folded in a corner
Happy birthday
Put your hand on my shoulder

Tired and so hung over
You wanted to learn how to fly
So I gave you gave you a present
My present present could cry

It was your birthday
You were shaking on my shoulder
Happy birthday
Kiss somebody goodbye

*Secrets in the middle of the eyes
And love problems
This is us
I still love you*

*I look and see
I understand everything
But I still love you
But I still love you*

*In the morning you are frightful
I have no words
I watch you go out
I feel suffering misery and distress*

*I am full of grievances
I am exhausted and weary
But I still love you
But I still love you*

Vow

I'll hold you when the night gets you to shaking
When the morning sun breaks through
Wherever you are running to

I'll sing you down from any situation
We will whisper in the dark
Two owls upon the ark

I wrote these vows / It's what I had to do
I wrote them while I was / Half asleep

I wrote these vows / It's what I had to do
I hope that they will keep

I'll never walk when you stutter in a crowd
We will laugh away the cold
Sleep in the grass when we grow old

I'll never lie about anything at all
But if all you are is true
I'll do anything for you

I wrote these vows / It's what I had to do
I wrote them while I was / Half asleep

I wrote these vows / It's what I had to do
I hope that they will keep

I'm just a sea of procrastination
Spinning through an empty sky
All I want to do is cry

Instead I'll hold you when the night gets you to
shaking
When the morning sun breaks through
Wherever you are running to

I wrote these vows / It's what I had to do
I wrote them while I was / Half asleep

I wrote these vows / It's what I had to do
I hope that they will keep

Stolen Love

Trees above
Steal my love
From the one who's standing next to me

We were sitting in the grass
Watching insects floating past
We were pinned and in the breeze
Until I fell upon my knees

Trees above
Steal my love

Sitting by a twisted lake
Near a nest of water snakes
Our backs were cold upon the clay
Then our answers fell away

Trees above
Steal my love
From the one who's standing next to me

You were laying in my lap
In your eyes a hidden map
Then we turned to part our hands
And whisper words we hadn't planned

We had killed our cares
Our homes were far away
You had been broken by the day

Trees above
Steal my love
Trees above
Steal my love

Problems

Everybody says that I got these problems
What they don't know is I also can solve em
Gonna take em down to the station
Make em answer for the crimes of the nation

[translation]

*I speak but don't hear
I am a foreign expert
Every day I dance in the air
I do not know*

*I am a yes man
I am a gentleman
If I do not know you
I do not see you*

*I fly but not high
I am a foreign expert
I am an elf
I don't know
I am a yes man
I am a gentleman
If I don't know you
I do not see you*

*But we / All make fools of ourselves
This is because / We all live well*

*But we all make fools of ourselves
This is because we*

Sha-la-la-la-la-la Sha-la-la-la-la-la

They may say that we are through
I will cry the whole day through
Don't you dare say that we are through

Geometrical Love

The space between us subdivides exponentially
We're looking at each other in a well-lit sparse room
You spoke of a species that continued to know flight
We met once on the stairs and again in an alcove

These lines could be used in a larger song all
about geometrical love

Geometrical love
Geometrical love

You and me

A Wedding

I'm ready / I'm about to go / Time to go

We got in the car
Person A, person B, and me
It was afternoon
A chilly august day
We were on our way
Though I didn't want to go
To a wedding

Didn't feel so well
Looking out the window
We were in the car
Person A, person B, and me
And then
We were looking for parking

Where's the wedding at / Where is it at
Who the hell are all / These strange people

It is way too hot / It is too hot
I should not have worn / This old sweater

Where's the wedding at / Where is it at
Who the hell are all / These strange people

We found our table / A couple sat accros from us
She was blonde / And just back from Hiroshima
Then the music started / Two brothers singing
The marshall brothers / The vows were simple
Afterwards her mother said it couldn't be any
other way
Then the best man got behind his guitar / And he
began to play

He sang a toast / Inspired by the Odyssey
We drank and caught our throats / Wiped away
our tears

We laughed and rose / Got food and taugt jokes
Looked up to watch a passing flock / The sky had
blown away

Then the best man sat down and he said
Then the best man sat down and he said

The sun only spins at 33 rpms
But it used to spin at 78

I dream that we are married in the night time
I dream we have plants and wooden beams

I could never eat a monkey.
They're my furry friends. A toast to John Wayne.

The sun only spins at 33 rpms
But it used to spin at 78

I dream that we are married in the night time
I dream that you are in love with me

Okay everybody. Let's play volleyball.
Oh. Aw. I'm talkin to you. You know what I'm talk-
ing about.

You are everything to me
You make me want to go slow
You make me want to fall.

By now that couple'd disappeared
He was playing volleyball by the corn field
I scanned the crowd but couldn't find her
I didn't think about it much

We're challenged to a friendly game
I could kill someone with one of these horse-shoes
After losing one in the bushes
I wouldn't play anymore

Blonde-haired girl I know you are not mine

Then I saw the girl with blonde hair
She was walking towards me leather shoes in hand
I wanted to tell her something
What it was I couldn't say

I offered her a cigarette
She said I's lying when I told her my age
We talked of placed we had been
Her lips were damp when she smiled

Blonde-haired girl I know
You are not mine
But today you are my sun
Sunshine
